(ITY AND SUBURBAN. WREN'S BILL VETOED.

the Detective's Claim. Mayor Carrington has prepared a veto message in relation to the action of the City Council in adopting a resolution paying Detective John Wren for services in the Cluverius case, and will submit it to the Common Council at its next meeting. The Mayor objects to the publication of the veto message until it has been laid before the Council but noon being asked his reasons.

cil, but upon being asked his reasons for vetoing the measure said : "I think that the Board of Aldermen creed in passing the resolution without referring it back to the Common Council, because after the Common Council had passed it the resolution came before them in another shape, was rejected, and so the Board of Aldermen

had notice of the change of the opinion of the Council. I think the State ought to pay the bill, and that it is impolitic, unwise, and unjust for the city to pay it until the State has at least had a chance to do so. The city proposes to pay for services rendered in the conviction of a man when the man has conviction of a man when the man has not been convicted, as the Court of Appeals has suspended a conviction. Until the Court of Appeals acts the conviction is not final. Nobody authorized or asked Mr. Wren to render any service. He volunteered his services, but was warned beforehand that there was no recoving of nayment, and that he promise of payment, and that he would have to take the chances of getting paid. His bill is exorbitant, because he charges the city more in this case than he has charged in other cases. than he has charged in other cases. No detective was needed in the case, the police being fully equal to the occasion. All the evidence gotten by Detective Wren would have been gotten by the police without his assistance. He has not furnished any material point of evi-dence that aided in the conviction of the prisoner. The claim has never been investigated by the Council or any commit-tee of the Council. Nobody has appeared or been saked to appear concerning the claim except Detective Wren and Mr. Meredith. The prisoner was detected and arrested by officers of the police force before Mr. Wren ever knew that a warrant had been issued for Cluverius's arrest, and, therefore, of course he (Wren) rendered no assistance in arresting or detecting the criminal; and my finale is, his pay should be very limited, if anything.

"As to the difference of opinion be-tween myself and Mr. Meredith, I would say that I believe he is equally honest in all his assertions with myself, but that he has been misled by Mr. Wren as to the extent and value of the services rendered."

It is understood that Mayor Carrington will in his message show by whom each piece of important evidence in this case was obtained.

THE NEW CITY HALL.

An Extension of Time Granted the Architects to Finish Plaus. The Council Committee on Grounds

and Buildings met yesterday evening to consider the following: BOSTON, November 11, 1885.

Colonel W. E. Cutshaw, City Engineer, &c. : Dear Sir .- We have arrived at the conclusion that we cannot complete the drawings, &c., of the Richmond City
Hall on the 15th of this month. We Fined \$5.50. find it necessary to make a few more

Will you please inform us if it is important to the Committee on Grounds and Buildings that the plans, &c., should be in their hands within a week

We can give them into their hands in about two weeks from this time, but if it interferes with no special arrangement of the committee, we would wish to spend about four weeks more on the drawings, which will be a benefit to the building and a source of more satisfac-

tion to us. We do not ask for this time for any other reason than the good of the work in hand on the City Hall. Our other business is in such trim that we can devote the whole time (except say one day a week) to this work. There are six men at work, and we propose to continue them on this work to com-

This delay will be to the benefit of all concerned, but if your arrangements are such, we will forward them to you when you order. Respectfully yours,
WAIT & CUTTER, Architects.

Under certain conditions the Committee on Grounds and Buildings granted an extension of time.

The contractor's time for the delivery of lumber for repairing the Free bridge expired yesterday, and at a meeting o the committee on repairs of the Bridge Commissioners, held yesterday afternoon, arrangements were made for the immediate delivery of the quantity of lumber necessary to complete the work.

A full force of hands will be put on tomorrow, and the contractor for the carpenter's work thinks the bridge will be ready for vehicles to pass over it in two weeks, if no delay is occasioned in putting on the iron for the street-railway track. It is to be hoped that the work will be done as soon as possible, as the people whose business requires them to cross the river, as well as the countrymen, many of whom are in very limited circumstances, who have business in Richmond, are subjected to great in-convenience and considerable expense.

Mr. T. Wiley Davis, president of the Board of Directors of Corcoran Hall,

has written Mr. Frank Cunningham, Richmond's natural musician, a letter expressing their high appreciation of his valuable services as "musical director "of their opening concert, and offer-ing him the use of the hall for a complimentary concert. Captain Cunningham has accepted the offer, and name as the night for the concert Tuesday the 24th instant. He will have the assistance of Mr. Kirk Mathews as accompanist, J. Louis Sultivan, of Chicago, as tenor, and Professor Adolph Bauer as piano soloist. He will have other attractions, which will be announced later.

The Long Strike. Monday night the "Long Strike" will be presented at the Theatre for the first time in Richmond. The play will be produced by the Knights of Labor Dramatic Company for the benefit of Electric Assembly, No. 3568, Knights of Labor.
